## Brief

I really enjoy working in a small collaborative team environment; after many experiences in desktop applications, system programming, and networking infrastructure, I settled into web application UI development as an interesting intersection of them all. I'm especially interested in user experience, elegant design, and accessibility.

## Skills

**Tools:**
  Bourne shell, GIMP, Git, VIM
**Languages:**
  Javascript, Typescript, HTML, CSS (*Less*, *SASS/SCSS*), TCL, C
**Systems:**
  Linux, Unix, Mac OS/X, Windows
**Technologies:**
  VueJS, DOM, HTTP, i18n/l10n, jQuery, MVC, REST, TCP/IP,
**Development:**
  Agile, Scrum, Kanban

## Experience

### Trupanion
*Front-end Web Application Developer*
April 2017 → June 2023
*Javascript, Typescript, SCSS, CSS, HTML, Razor (C# templates), ASP.Net, Git*

Projects

- Member Portal: provides customer access to their account. VanillaJS/Typescript/jQuery, Sass
- Website 3.0: main public-facing website; part of a rewrite team. VanillaJS/jQuery, Sass, Sitecore
- VetPortal (aka Trupanion Express): veterinary hospital software. Full rewrite from VanillaJS/jQuery/KnockoutJS to VueJS
- Hospital Management Tool: internal support for VetPortal. Vue.js, Element.io
- Partner Portal: allows State Farm agents to create & manage their portfolio of Trupanion policies. VueJS
- Agent Reassignment Tool: allow State Farm managers to manage policy re-distribution among agents. VueJS

### Navigating Cancer (contract position)
*Front-end Web Application Developer*
June 2016 → February 2017
*Bootstrap, Coffeescript, BackboneJS, HAML, JSON Schema, JSON Editor, Mocha, Ruby on Rails, SASS*

Developer for Navigating Cancer's suite of Patient Care Management software, dedicated to improving and streamlining the relationship and care experience for cancer patients and oncology clinics. Achievements and projects completed include:

- Complex Triage Pathways: implemented a set of JSON Schema+JSON Editor-based dynamic forms to standardize symptom data recording for cancer patients
- Living Style Guide: continued work to maintain and upgrade the development group's style and component library

## Web Application Software Developer/Engineer

hjess@mail.com
206.412.9924

**Rosetta Stone** (after April 2013 Livemocha aquisition)
*Front-end Web Application Developer*
November 2012 → April 2016
*AngularJS, CouchDB, HTML, Javascript, Mixpanel, SCSS, Sproutcore*

Developer for Rosetta Stone's Advanced English for Business language-learning application, and Livemocha, a social community-based language-learning application. Achievements and projects completed include:

- Password reset/recovery
- User profile management
- Partner connections
- Analytics, using Mixpanel Analytics
- System rewrite from Sproutcore to AngularJS.

**Optify, Inc.**
*Front-end Software Engineer*
September 2011 → October 2012
*BackboneJS, HTML, Javascript, LESS, Mixpanel*

UI developer for Optify's *Inbound Marketing* software suite, a *SAAS* tool for B2B marketers. Achievements and projects completed include:

- Customer site "Landing Page" editor/publisher
- Contact Manager & Email Manager tools
- Analytics, using Mixpanel Analytics
- Rewrote UI coding standards document, and overhauled the Javascript library namespace

**Cobalt.com, Inc.**
*Senior UI Developer*
September 2009 → September 2011

Lead UI developer on Cobalt's *New Products* team, charged with creating and delivering innovative website products for sale to auto manufacturers and dealers. Achievements and projects completed include:

- Embedded Google maps for location pages
- Facebook and Twitter publishing and feed widgets
- Embedded YouTube player/playlist handler
- Initial implementation of front-end unit testing using jstestdriver

**Wetpaint.com, Inc.**
*UI Web Developer*
September 2008 → July 2009

UI developer for Wetpaint's "*build your own wiki*" system. Achievements and projects completed include:

- Enhanced messaging forum system
- Access to PayPal's recurring billing system
- User authentication using Facebook Connect
- Conversion from home-grown library to jQuery
